Letter of Recommendation

TO WHOMSOEVER IT MAY CONCERN

I am pleased to write a letter of recommendation for **Mr. Shashank Mishra**, one of the most disciplined students I had in my teaching career of 17 years. Shashank is an intelligent, well-rounded and grounded individual who challenges himself and actively seeks new opportunities and experiences. I was the Head of Computer Science & Engineering department at Gyan Ganga Institute of Technology & Management, Bhopal (M.P., India) during his under-grad studies from 2008-2012. I can confidently say that Shashank possesses the determination, maturity and intelligence to succeed in any endeavor and always maintain a positive attitude.

My first interaction with Shashank was in 3rd semester; when he was selected as the class representative. He had disciplined work habits and always helped others to achieve the same. I taught him a couple of subjects mainly **Computer Graphics & Multimedia** and **Advanced Computing**. He not only learnt the theoretical concepts, but he would always want to implement them always seeking practical use and how can we use it to solve different real-life problems. We had many effective classroom discussions which helped him as well as other students. I was his mentor for the project "**Portal for C.S.I.**". He went beyond the course requirements in the quality and quantity of his project, putting lot of extra research. His exceptional analytical ability has helped him a lot in this project. Throughout the course Shashank demonstrated great perseverance and initiative. He also took different unique electives which were the first-time courses in our college to enhance his vision as a computer science student. He not only completed these courses with high grades but also extensively helped his batchmates and faculties who were with him in these courses. He has a keen interest in human-computer interaction and always tried to solve the real-life problems with help of technology.

Shashank was one of the best students we had in our Computer Science Department. He had a great rapport with everyone in the college be it faculty or students. He was always ready to help any faculty or juniors across the departments. To mention, he had the best attendance in all four years across all departments in the college. He was awarded as the Best Outgoing Student for 2008-2012 batch for his exceptional accomplishments. His communication skills enabled him to be a great leader and a good team player. He was also the president of Student Council and organized many successful events in college. He led the council very well and always kept them motivated. I was personally impressed with his curiosity, creativity and love for learning. He had also participated in many technical and cultural events outside college and represented our college in SEDS International conference held at VIT University. His academic and personal achievements show that he was committed to his education and will work hard to achieve his goals.

Shashank always had a propensity to explore the world of computer science, and I was confident from the beginning that he would be taking it to master's study and beyond that. I have no doubt that Shashank will excel in master's program in Computer science and recommend him highly. I think he will make a great contribution to your university and I am very much looking forward to seeing and experiencing the contributions he will make in the field of Computer Science.

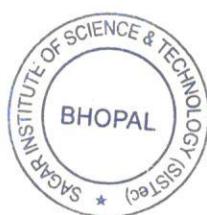

With Regards,

Ujjwal Nigam

PRESIDENCY UNIVERSITY

Private University established in Karnataka State by Act No. 41 of 2013

Letter of Recommendation

TO WHOMSOEVER IT MAY CONCERN

It is a great pleasure for me to recommend Mr. Shashank **Mishra** for the masters' programme in Computer Science into your prestigious University. He is an extremely talented student and amongst the top 1% students I have supervised in 20 years of teaching. I was the principal of the college during his bachelor's from 2008-2012. I was always amazed by the work carried out by Mr. Shashank in every field whether it was academic or non-academic. From the initial years of his college life, he was very clear that, he wanted to work on various challenging problems which involved good learning potential.

Mr. Shashank has a great aptitude in the area Computer Science & Engineering and always tries to solve real-life problems with technology. He had developed quite a handful projects and was actively involved in different researches during his undergraduate study. His major project, Searching Device for Indoor articles was featured in Techtop Innovation competition. Personally, I was immensely amazed by the simple and futuristic idea of the project and used the device personally. Mr. Shashank always worked across departments, learning latest technologies to bring his ideas to life. It is also worth noting that he was one of the best students of college who always topped his class and performed exceptionally well in examinations. Because of his & a few other students' keen interest in different computing courses, the college for the first time offered electives like: Bio-Informatics, Advanced Computing Paradigm and Embedded Computer Systems. He was actively involved in preparing these new courses with the necessary resources. Mr. Shashank was awarded as the Best Outgoing Student of the College for his extraordinary achievements throughout. He was the first and the only one to get placed in prestigious company Persistent System Ltd. from his batch in an open pool campus drive in which more than 300 students took part. He also took sessions for his juniors and helped them with their project work, course work and placements. Mr. Shashank has participated in many technical and non-technical events within and outside college and always performed exceptionally well. His personal qualities are as good as his intellectual accomplishments and abilities. An extremely kind, sensible and disciplined work habits make him a perfect student. For his outstanding accomplishments and excellent communication skills he was selected as the President of Student council. I can confidently say that he is a great leader and a good team player. He raised the bar for his successors in college. He had organized many inter-college technical and cultural events where around 5000+ students participated successfully.

PRESIDENCY UNIVERSITY

Private University established in Karnataka State by Act No. 41 of 2013

He was a very motivated, confident, sincere and talented student who did not need too much hand holding to accomplish his tasks. He always had immense passion for higher studies and wanted to be part of research groups. I can say that he showed and has potential to do significantly outstanding work during his studies. I am confident that he will achieve success in his field of interest. I sincerely hope that you will be able to offer him a place in your distinguished University. Please feel free to contact me if you need any further details.

Letter of Recommendation

TO WHOMSOEVER IT MAY CONCERN

It is with great pleasure that I recommend **Shashank Mishra** for admission to the master's programme into your prestigious university. In my two years of teaching him, he had demonstrated the qualities necessary for high success in the competitive academic environment as well as the social skills needed to be successful in life and college. I was the professor in the Electronics department during his undergrad studies 2008-2012. I was immensely impressed by his intellectual abilities and attitude towards problem solving.

I can say that he has a great motivation towards solving complex issues and real-life problems. I taught him **Microprocessor and Interfacing** in 6th semester (2011) and **Embedded Computer Systems** in 7th semester (2011). The latter was the elective he took and the first time that I was teaching that subject; the amount of effort he put not only in learning but helping me as well as other students was truly commendable. We had many effective classroom discussions which helped everyone. He had great passion and enthusiasm for new things and always tried to achieve by going the extra mile. I was his mentor for his major project "Searching Device for Indoor Articles". We worked on multiple things and the amount of perseverance and dedication Shashank showed in learning and implementing new things like MATLAB and processor interfacing was tremendous. I can strongly say that Shashank has the right attitude to start and finish the things within deadline. He is a highly motivated individual with a thirst for knowledge and potential for growth.

Shashank was one of the most versatile students I know; he had a great attitude towards learning and teaching. Shashank was inclined towards inter-disciplinary academics. He collaborated with few of my department students and created few other exciting projects. He has a helpful, sensitive and kind nature that was always ready to achieve excellence in all aspects of life. He was the Best Outgoing Student of the college for batch 2008-2012 and was selected as the President of Student Council. I worked with him in student council and can say that he can handle pressure very well and bring out the best out of everyone he interacts with. He was also active member of different technical communities like CSI, ISTE, and SEDS. Also, he held important designation for these communities in our college. He always led these activities because of his belief in compassion and towards the act of giving back to the society.

He exudes confidence and possesses a vivid, outward, and friendly personality that allows him to gel up with others very well in any situation. I admire him for his sincerity, intelligence, creativity and integrity and impressed by his discipline as an independent learner. I am confident that he will be able to meet the requirements of selection process and given a chance will add a great value and will always make your institution feel proud. I will extend all possible assistance in relation to Shashank's application. Please feel free to contact me.

Dr. Mahendra V - Professor | Project Mentor - +91-7760414507 – mahendra.1548@gmail.com

LETTER OF RECOMMENDATION

TO WHOMSOEVER IT MAY CONCERN

I am pleased to write a letter of recommendation for **Mr. Shashank Mishra**, one of the best programmers I have seen in my 14 years of IT experience. I have known Shashank for the last 5 years and was the Technical Manager of the project in which he worked. I can say that he is our go to guy; whenever client needed anything to be done with stringent deadline it was Shashank, whom we could rely upon. Shashank has represented the company 4 times in a row at India's biggest coding competition named Techgig Code Gladiator, in addition to this, Persistent Systems won the Coding Powerhouse of India title for three times consecutively, of which Shashank was a vital part. In the year 2017, he was ranked 11th Best Coder of India. He is also amongst the top 10 coders of Persistent Systems. Shashank was always passionate for higher studies and it gives me immense pleasure that he is finally taking it ahead.

Shashank joined Persistent as a Software Engineer in January 2013 in the Telecom and Media service unit of Persistent. He worked on Network Management Software, where his duties included requirement analysis, design solutions and implementation. In 2015, he joined the Machine learning services unit of Persistent and since then he is working with me. Shashank has learned many new technologies and evolved himself as Team Lead. Shashank is trained in IBM Watson, AWS, Azure and Agile methodology.

Shashank is involved in the design and development aspect of the project. He proposes solutions to the client requirements and lead the team to develop the solution and ensure timely delivery. He works on different languages as per client need being it Java, C# or Python. Shashank's communication skill is the key part of his work, he deals with the client and makes sure that the client understands all the details and agrees with our proposed solutions. One of the best qualities of Shashank is, he always meets the deadlines. Even if he has to learn a technology from the scratch, he delivers it on time without fail. Shashank brings innovative ideas and solutions to the legacy systems which is quite interesting for everyone in the team and for the client as well. His innovative thinking is a key area which always keep him ahead of others. He received appreciation on regular basis from clients. He always got the best rating for his exceptional performance in the company and was always rated amongst the top 10% employees of Persistent. In a short span of 5 years he was promoted as Team Lead and handling a team of 10 people. He also actively assists members of other projects with his knowledge.

He has received many awards from the company like "Star Performer" or "You Made a Difference" for his notable contribution. He regularly participates in hackathons and performs exceptionally well. Shashank is also a good cricket player; he is the captain of the Persistent Cricket team. He always participates in many cultural events organized in the company. Shashank is an active member of various Persistent foundation's CSR activities.

Shashank is a good team leader who builds the team and makes sure that everyone is performing to their best potential. His innovative thinking and an eye for detail helps him achieve the best out of everything. Shashank has sincerity, creativeness, analytical skills and keen learning abilities. These qualities make him a suitable candidate for masters and I am confident that he will be successful in his masters and recommend him highly for the same. If you have any queries, please feel free to get in touch with me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Sarang Fadnavis'.

Sarang Fadnavis
Technical Project Manager
